PROFESSIONAL SUMMARY

MCA student with hands-on interest in software development, artificial intelligence, data science, data analytics, prompt engineering, and cloud computing. Skilled in C, Java, Python, SQL, HTML, CSS, and PHP with knowledge of data structures and web application development. Built practical projects for college search and real-estate e-commerce, with a focus on problem solving, logical thinking, and learning new technologies.

EDUCATION

Master of Computer Applications (MCA) - Fergusson College, Pune | Currently Pursuing

B.Sc. Computer Science - Nutan Vidya Prasark Mandal, Lasalgaon, Niphad, Nashik | CGPA: 8.81 | A+ Grade | 2026

HSC (XII) - S.P.D. Surana College of Arts, Commerce & Science, Chandwad, Nashik | 49.57% | 2023

SSC (X) - K.T.B. Vidyalaya, Nandur Madhyameshwar, Niphad, Nashik | 78.67% | 2021

TECHNICAL SKILLS

Programming: C, Java, Python

Database: SQL

Web Technologies: HTML, CSS, PHP

Core Concepts: Data Structures, Problem Solving, Logical Thinking

Data & AI: Artificial Intelligence, Data Science, Data Analytics, Prompt Engineering

Other: Full-Stack Development, Cloud Computing, Adaptability, Teamwork

PROJECTS

College Elite Directory - College Search & Student Assistance Platform

- Developed a web-based platform to help students find suitable colleges based on requirements and preferences.
- Provided college information, contact details, and search support in one place.
- Added document-saving support and features to simplify the college-search process.

NA PLOAT - E-Commerce Web Application

- Developed a web application for buying and selling plots, flats, homes, and land online.
- Implemented property listing, search, and filtering features to improve property discovery.
- Enabled an interface for connecting buyers and sellers and managing real-estate transactions.

CORE STRENGTHS

Problem Solving | Logical Thinking | Teamwork | Adaptability | Learning New Technologies | Practical Implementation

AREAS OF INTEREST

Software Development | Artificial Intelligence | Data Science | Data Analytics | Web Development | Cloud Computing
